

Very Cool Flat MagFix

MAN & MACHINE

Feel the attraction! Magnets are integrated inside this hygienic keyboard, for easy attachment to magnet sensitive surfaces. This generously sized keyboard is washable because its internal electronics are safely sealed. Its sterilisable drape keeps germs out. Discover all features that make this keyboard so perfectly suited for use in medical and other hygiene sensitive settings.

CLEAN HYGIENICALLY WASHABLE

To fit your cleaning protocol, keyboard and drape may both be dipped, rinsed, sprayed, or wiped with soap and water as well as approved cleaning fluids.

USE YOUR STANDARD DISINFECTANT DISINFECTABLE

The keyboard resists most common surface disinfectants, allowing you not only to clean it, but also disinfect it. Treat it just like any other high frequency touch surface in your facility.

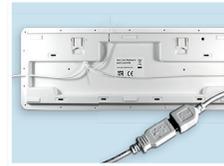

BLOCK TO CLEAN LOCKABLE

No need to disconnect during cleaning. Hold down F11 key for 3 seconds to lock or unlock and secure your data during keyboard treatment.

TOUCH AND SPEED OF A REGULAR KEYBOARD USER FRIENDLY

Enjoy the tactile feedback of this keyboard offered by its full travel mechanical keys. The drape has a slight relief for easy finger positioning and blind typing.

SMART CABLE QUICK INSTALL

For easy cable management, Very Cool Flat comes standard with a 45 cm cable that can be led in 4 directions, plus a 150 cm extension cable which can be guided into a cart, desk or wall. Its easy-disconnect cable has double strain relief to maximise durability.

STERILISABLE DRAPE GERM BARRIER

The fitted drape prevents bacteria from entering between keys. It can be sterilised in an autoclave or thermo disinfectant for the ultimate clean.

HYGIENIC WHITE PROMOTE INFECTION CONTROL

For a fresh and clean look, and to easily detect contamination and respond instantly, Very Cool Flat features a hygienic white exterior.

SAFE CHOICE FREE OF ANTIMICROBIAL COATING

We choose not to use antimicrobial coatings to avoid any risk of potential harm to users or to the environment.

Very Cool Flat MagFix
